2. Описание показателей (типов заданий) и критериев оценки (указания по оцениванию и результат оценивания) индикаторов компетенций для проведения текущего контроля и промежуточной аттестации

Тип заданий	Указания по оцениванию для каждого типа заданий	Результат оценивания (баллы, полученные за выполнение задания/характеристика правильности ответа)
Задание закрытого типа с выбором правильного ответа	Задание закрытого типа с выбором правильного ответа считается верным, если правильно установлен ответ	Совпадение с верным ответом оценивается 1 баллом; неверный ответ или его отсутствие – 0 баллов. Либо указывается «верно»/ «неверно»
Задание закрытого типа на установление соответствия	Задание закрытого типа на установление соответствия считается верным, если правильно установлены все соответствия (позиции из одного	Полное совпадение с верным ответом оценивается 1 баллом; неверный ответ или его

	столбца верно сопоставлены с позициями другого)	отсутствие – 0 баллов. Либо указывается «верно»/ «неверно»
Задание закрытого типа на установление последовательности	Задание закрытого типа на установление последовательности считается верным, если правильно указана вся последовательность цифр	Полное совпадение с верным ответом оценивается 1 баллом; если допущены ошибки или ответ отсутствует – 0 баллов. Либо указывается «верно»/«неверно».
Задание комбинированного типа с выбором одного верного ответа из четырех предложенных и обоснованием выбора	Задание комбинированного типа с выбором одного верного ответа из предложенных с обоснованием выбора ответа считается верным, если правильно указана цифра и приведены корректные аргументы, используемые при выборе ответа.	Совпадение с верным ответом оценивается 1 баллом; неверный ответ или его отсутствие – 0 баллов. Либо указывается «верно»/«неверно».
Задание комбинированного типа с выбором нескольких вариантов ответа из предложенных и развернутым обоснованием выбора	Задание комбинированного типа с выбором нескольких вариантов ответа из предложенных с обоснованием выбора ответов считается верным, если правильно указаны цифры и приведены корректные аргументы, используемые при выборе ответа.	Полное совпадение с верным ответом оценивается 1 баллом; если допущены ошибки или ответ отсутствует – 0 баллов. Либо указывается «верно»/«неверно».
Задание открытого типа с развернутым ответом	Задание открытого типа с развернутым ответом считается верным, если ответ совпадает с эталонным по содержанию и полноте.	Полный правильный ответ на задание оценивается 3 баллами; если допущена одна ошибка/неточность/ответ правильный, но не полный – 1 балл, если допущено более одной ошибки/ответ неправильный/ ответ отсутствует – 0 баллов Либо указывается «верно»/«неверно».

1. Уровни сложности оценочных материалов

Наименование	Характеристика	Время выполнения
Базовый	Воспроизведение, терминология, факты, параметры, теории, принципы. Тип задания: задания с выбором ответа, комбинированные задания	1-3 мин.

Повышенный	Применение знаний в типичной ситуации, решение типовых задач, сопоставление, последовательность. Тип задания: комбинированные задания, задания с развернутым ответом	3-5 мин.
Высокий	Применение знаний в нестандартной ситуации, решение нетиповых задач, алгоритмы, доказательства, обоснования. Тип задания: задания на установление последовательности и соответствия, задания с развернутым ответом	5-10 мин.

1. Сценарии выполнения тестовых заданий.

Тип задания	Последовательность действий при выполнении задания
Задание закрытого типа с выбором правильного ответа	1. Внимательно прочитать текст задания. 2. Внимательно прочитать список предполагаемых ответов. 3. Записать ответ.
Задание закрытого типа на установление соответствия	1. Внимательно прочитать текст задания и понять, что в качестве ответа ожидаются пары элементов. 2. Внимательно прочитать оба списка: список 1 – вопросы, утверждения, факты, понятия и т.д.; список 2 – утверждения, свойства объектов и т.д. 3. Сопоставить элементы списка 1 с элементами списка 2, сформировать пары элементов. 4. Записать попарно буквы и цифры (в зависимости от задания) вариантов ответа (например, А1 или Б4)
Задание закрытого типа на установление последовательности	1. Внимательно прочитать текст задания и понять, что в качестве ответа ожидается последовательность элементов. 2. Внимательно прочитать предложенные варианты ответа. 3. Построить верную последовательность из предложенных элементов. 4. Записать буквы/цифры (в зависимости от задания) вариантов ответа в нужной последовательности без пробелов и знаков препинания (например, БВА или 135)
Задание комбинированного типа с выбором одного верного ответа из четырех предложенных и обоснованием выбора	1. Внимательно прочитать текст задания и понять, что в качестве ответа ожидается только один из предложенных вариантов. 2. Внимательно прочитать предложенные варианты ответа. 3. Выбрать один ответ, наиболее верный. 4. Записать только номер (или букву) выбранного варианта ответа. 5. Записать аргументы, обосновывающие выбор ответа
Задание комбинированного типа с выбором нескольких вариантов ответа из предложенных и развернутым обоснованием выбора	1. Внимательно прочитать текст задания и понять, что в качестве ответа ожидаются несколько из предложенных вариантов. 2. Внимательно прочитать предложенные варианты ответа. 3. Выбрать несколько вариантов ответа, наиболее верных. 4. Записать только номера (или буквы) выбранных вариантов ответов. 5. Записать аргументы, обосновывающие ваш выбор.

Задание открытого типа с развернутым ответом	1. Внимательно прочитать текст задания и понять суть вопроса. 2. Продумать логику и полноту ответа. 3. Записать ответ, используя четкие компактные формулировки. 4. В случае расчетной задачи, записать решение и ответ.

41.	Установите соответствие между заголовками 1–8 и текстами А–Г. Запишите свои ответы в таблицу. Используйте каждую цифру только один раз. В задании есть один лишний заголовок. 1. Places to stay in 2. Arts and culture 3. New country image 4. Going out	A. Belgium has always had a lot more than the faceless administrative buildings that you can see in the outskirts of its capital, Brussels. A number of beautiful historic cities and Brussels itself offer impressive architecture, lively nightlife, first-rate restaurants and numerous other attractions for visitors. Today, the old-fashioned idea of 'boring Belgium' has been well and truly forgotten, as more and more people discover its very individual charms for themselves. B. Nature in Belgium is varied. 		rivers and hills of the Ardennes in the southeast contrast sharply with the rolling plains which make up much of the northern and western countryside. The most notable features are the great forest near the frontier with Germany and Luxembourg and the wide, sandy beaches of the northern coast. C. It is easy both to enter and to travel around pocket-sized Belgium which is divided into the Dutchspeaking north and the French-speaking south. Officially the Belgians speak Dutch, French and German. Dutch is slightly more widely spoken than French, and German is spoken the least. The Belgians, living in the north, will often prefer to answer visitors in English rather than French, even if the visitor's French is good. D.

		Belgium has a wide range of hotels from 5-star luxury to small family pensions and inns. In some regions of the country, farm holidays are available. There visitors can (for a small cost) participate in the daily work of the farm. There are plenty of opportunities to rent furnished villas, flats, rooms, or bungalows for a holiday period. These holiday houses and flats are comfortable and well-equipped.				
42	5. Different landscapes 6. Transport system 7. National languages 8. Eating out	E. The Belgian style of cooking is similar to French, based on meat and seafood. Each region in Belgium has its own special dish. Butter, cream, beer and wine are generously used in cooking. The Belgians are keen on their food, and the country is very well supplied with excellent restaurants to suit all budgets. The perfect	A-3; B-5; C-7; D-1; E-8; F-4; G-6. 		evening out here involves a delicious meal, and the restaurants and cafes are busy at all times of the week. F. As well as being one of the best cities in the world for eating out (both for its high quality and range), Brussels has a very active and varied nightlife. It has 10 theatres which produce plays in both Dutch and French. There are also dozens of cinemas, numerous discos and many night-time cafes in Brussels. Elsewhere, the nightlife choices depend on the size of the town, but there is no shortage of fun to be had in any of the major cities. G. There is a good system of underground trains, trams and buses in all the major towns and cities. In addition, Belgium's waterways offer a pleasant way to enjoy the country. Visitors

		can take a one-hour cruise around the canals of Bruges (sometimes described as the Venice of the North) or an extended cruise along the rivers and canals linking the major cities of Belgium and the Netherlands.					
43	1. Places to stay in 2. Public transport 3. Cultural differences 4. Nightlife	A. Sweden is a land of contrast, from the Danish influence of the southwest to the Laplanders wandering freely with their reindeer in the wild Arctic north. And while Sweden in cities is stylish and modern, the countryside offers many simpler pleasures for those who look for peace and calm. The land and its people have an air of reserved calm, and still the world's best-selling pop group Abba, which used to attract crowds of hysterical fans, come from Sweden. B. Historically, Sweden has an	A-3; C-7; E-8; G-6.	B-5; D-1; F-4;	OK01- OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		interesting story. Its dealings with the outside world began, in fact, during Viking times, when in addition to the well-known surprise attacks of the nearby lands, there was much trading around the Baltic, mostly in furs and weapons. Swedish connections with the other Scandinavian countries, Norway and Denmark, have been strong since the Middle Ages. The monarchies of all three are still closely linked. C. Sweden's scenery has a gentler charm than that of neighbouring Norway's rocky coast. Much of Sweden is forested, and there are thousands lakes, notably large pools near the capital, Stockholm. The lakeside resort in the centre of Sweden is popular with Scandinavians, but most visitors prefer first the

		Baltic islands. The largest island, Gotland, with its ruined medieval churches, is a particular attraction. D. Sweden boasts a good range of hotels, covering the full spectrum of prices and standards. Many of them offer discounts in summer and at weekends during the winter. In addition, working farms throughout Sweden offer accommodation, either in the main farmhouse or in a cottage nearby. Forest cabins and chalets are also available throughout the country, generally set in beautiful surroundings, near lakes, in quiet forest glades or on an island in some remote place.				
44	5. Camping holidays 6. Contacts with neighbours 7. Different landscapes 8. Eating out	E. Living in a tent or caravan with your family or friends at weekends and on holiday is extremely popular in Sweden and	A-3; B-5; C-7; D-1; E-8; F-4; G-6.	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		there is a fantastic variety of special places. Most are located on a lakeside or by the sea with free bathing facilities close at hand. There are over 600 campsites in the country. It is often possible to rent boats or bicycles, play mini-golf or tennis, ride a horse or relax in a sauna. It is also possible to camp in areas away from other houses. F. Swedes like plain meals, simply prepared from the freshest ingredients. As a country with a sea coast and many freshwater lakes, fish dishes are found on all hotel or restaurant menus. Top-class restaurants in Sweden are usually fairly expensive, but even the smallest towns have reasonably priced self-service restaurants and grill bars. Many restaurants all over Sweden offer a special dish of the day

		at a reduced price that includes main course, salad, soft drink and coffee. G. Stockholm has a variety of pubs, cafes, clubs, restaurants, cinemas and theatres but in the country evenings tend to be very calm and peaceful. From August to June the Royal Ballet performs in Stockholm. Music and theatre productions take place in many cities during the summer in the open air. Outside Stockholm in the 18th-century palace there are performances of 18th-century opera very popular with tourists.				
45	1. Education 2. Way of life 3. Public transport 4. Geography	A. Denmark, a small kingdom in northern Europe, has a lot of interesting places for tourists with children. 		Denmark outside its capital Copenhagen. And Copenhagen itself is world famous for its Tivoli Gardens amusement park, which opened in 1843 in the heart of the city. The park offers ballet and circus performances, restaurants, concerts, and fireworks displays. B. Denmark is the smallest Scandinavian country, consisting of the Jutland peninsula, north of Germany, and over 400 islands of various sizes, some inhabited and linked to the mainland by ferry or bridge. Throughout the country, low hills provide a constant change of attractive views; there are also cool and shady forests of beech trees, large areas of open land covered with rough grass, a beautiful lake district, sand dunes and white

		cliffs on the coast. C. More than four-fifths of all Danes live in towns. The main cities represent a combination of medieval buildings, such as castles and cathedrals, and modern office buildings and homes. Denmark's high standard of living and wide-ranging social services guarantee that the cities have no poor districts. Most people in the cities live in flats. But in the suburbs many also live in single-family houses. D. Denmark's fine beaches attract many visitors, and there are hotels and pensions in all major seaside resorts. Besides, excellent inns are to be found all over the country. Some are small and only serve local travellers, but others are adapted to the tourist and have established reputations for

		both international dishes and local specialities. There are also private rooms to let, usually for one night, and chalets all over Denmark.				
46	5. Places to stay in 6. Favourite food 7. Hot spots for kids 8. Nightlife	E. There is a wide selection of places to go out in the evening, particularly in Copenhagen. Jazz and dance clubs in the capital city are top quality and world-famous performers appear regularly. There are numerous cafes, beer gardens and speciality beer bars. Entertainment available includes opera at the recently opened opera house in Copenhagen, ballet and theatre at a number of places in the larger cities, and live music of all kinds. F. Most Danes eat four meals a day — breakfast, lunch, dinner, and a late-evening supper. Breakfast generally	A-1; B-5; C-2; D-7; E-3; F-6; G-8.	OK01- OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		consists of cereal, cheese, or eggs. Dinner, which includes fish or meat, is usually the only hot meal. A traditional Danish dinner consists of roast duckling stuffed with apples, served with red cabbage and boiled potatoes. The other Danish meals consist mostly of sandwiches. G. Almost all adult Danes can read and write. Danish law requires children to attend nine years of school. Primary school consists of the first seven grades, and secondary school lasts from three to five years. A five-year secondary school student can enter a university. Denmark has three universities. The University of Copenhagen is the oldest and largest. It was founded in 1479 and has about 24,000 students.

When I was on the streets, I thought I was not good at anything but I wrote a poem, and it got published. I went back to school to learn. I have learned the benefit of research and reading, of debate and listening. One day soon a group of fresh-faced college students will call me professor. B. Language has the capacity to change the world and the way we live in it. People are often afraid to call things by their direct names, use taboos not to notice dangerous tendencies. Freedom begins with naming things. This has to happen in spite of political climates, careers being won or lost, and the fear of being criticized. After Helen Caldicott used the word	E-3; F-6; G-8. I consider my job to be one of the most important aspects of my life, still I do not teach for the love of teaching. I am a teacher because I love to learn, and I have come to realize that the best way to learn is to teach. D. One day my sister and I got one and the same homework. My sister finished the task in 2 minutes and went off to play. But I could not do it, so I went into my sister's room and quickly copied her work. But there was one small problem: my father caught me. He didn't punish me, but explained that cheating makes people feel helpless. And then I was left feeling guilty for

		cheating.				
48	5. Things Worth Learning 6. The Right Word Can Bring Changes 7. What My Father Taught Me 8. The Power of Numbers	E. Lifelong learning does not mean spending all my time reading. It is equally important to get the habit of asking such questions as ‘what don’t I know about this topic, or subject?’, ‘what can I learn from this moment or person?’, and ‘what more do I need to learn?’ regardless of where I am, who I am talking to, or what I am doing. F. Math has always been something that I am good at. Mathematics attracts me because of its stability. It has logic; it is dependable and never changes. There might be some additions to the area of mathematics, but once mathematics is created, it is set in stone. We would not be able to check emails or play videogames without the computer solving complex	A-1; B-5; C-2; D-7; E-3; F-6; G-8.	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		algorithms. G. When my high school English teacher asked us to read Shakespeare, I thought it was boring and too difficult. I agonized over the syntax — I had never read anything like this. But now I am a Shakespeare professor, and enjoy teaching Hamlet every semester. Each time I re-read the play, I find and learn something new for myself.				
49	1. Not Just Fun 2. Running For Heart and Mind 3. United By The Game 4. I Want To Be A Coach	A. I believe playing sports is more than an activity to fill your day, it can teach important life lessons. When I was a child, my dad spent a lot of time teaching me how to play different sports. He told me that if I can succeed in sports, I can succeed at anything in life. He used to say, 'It's not about how good you become. It's about working hard to get where you want to be.'	A-1; B-5; C-2; D-7; E-3; F-6; G-8.	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		B. I like bicycles. Group rides help me to get new skills and make new friends. I try to apply the tactics of group riding to team work in the real world. In the perfect group ride, each rider takes a turn leading the pack, while the others enjoy the benefits of drafting. I think this way of working is a great method for approaching a group task anywhere. C. I believe in the power of running. Running should not be a battle for your body but rather a rest for your mind. I felt this last fall, when I was running in the park. Suddenly I felt as if I could have run forever, as if I could use running as a source of therapy for my body. Running allows the body to release different types of stress and even change our understanding of life.

		D. My father coached basketball every day of his life, and I was right there with him in the gym watching him work his magic. Basketball appears entertaining and exciting. But the path to success is not simple. My father always told me, 'Nothing is free.' I took this advice and ran with it. I truly believe that only practice and determination lead to success.				
50	5. Team Work in Sport and Life 6. Next Year We Win 7. Learning From Father 8. School between Practices	E. Baseball is so much more than a sport. One of the powers of baseball is that it brings people together. It unites fans of all ages, genders, and nationalities. No matter who you are, you can be a baseball fan. My mom and I have one unspoken rule: no matter what has been going on before, no fighting at the game. F. I believe that you must always be loyal to the sport	A-1; B-5; C-2; D-7; E-3; F-6; G-8.	OK01- OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		teams you support. The teams I follow in the United States generally lose many more than they win. The start of each season brings dreams of victory in baseball, basketball or football, dreams that fade away soon. But then there is always next year. It will be our year for sure. G. I was determined to join the swim team. I knew I would get my strengths and learn my weaknesses there. Waking up early for 6:30 a.m. practices is what swim team is all about, as it helps us get into state. On a long school day you think about the practice in the pool after school. You want to hear the crowd cheering you, telling you that you have to do more than your best.

Always in a hurry 2. The city of skyscrapers 3. Winning and losing 4. Unknown side of the city 5. Saving the variety	A. New York is really the melting pot of the world. Over 30 percent of its residents have come from abroad. It is believed that the city has the greatest linguistic diversity on the planet. There are over 800 different languages divided among its people. As some of these languages are nearly extinct, the City University of New York has begun a project called the Endangered Language Alliance. Its aim is to preserve rare languages like Bukhari, Vhlaski, and Ormuri.	A-5; B-4; C-3; D-1.	OK01-OK07, OK09	31, Y1, Y2, Y3	10

		B. New Yorkers love to think they know everything about their city: where to find the best fruit, how to avoid paying full price at museums, what route to take to avoid traffic. But New York City can reveal new treasures even to its veterans. Beyond the city where New-Yorkers work, eat, play and commute every day lies a hidden New York: mysterious, forgotten, abandoned or just overlooked. There are places about which you're not likely to read in any guidebook. C. The Chrysler Building was in a race with the Bank of Manhattan for getting the title of the tallest skyscraper in the world. The Bank was likely to triumph, with its height of 282 meters. But the spire of the Chrysler Building was constructed in secret inside the tower. Just one week after the Bank of Manhattan was finished, it was put in place, making it 318 meters tall and beating the Bank. It wouldn't keep this title for long: one

		year later the Empire State Building was erected. D. In New York life never stands still. People have to call cabs, ride subway cars, do business of all kinds, eat pizzas and sandwiches for lunch. When you multiply that by more than eight million people in less than 500 square miles, you get the idea: everyone goes everywhere as fast as it is humanly possible. Whatever you do, don't stop in the middle of the sidewalk or you'll make everyone around you incredibly angry.

Lacking a feeling of danger in their everyday activities, people wanted more excitement or risk. Another reason is improved sports technology. For example, the invention of sticky rubber-soled climbing shoes and artificial climbing walls increased the appeal of rock climbing. And advances in ski design allowed more skiers to try extreme feats. D. Extreme Ironing is an extreme sport and a performance art. People who play this unusual sport go to a remote location and iron clothes! They call themselves "ironists", and get a thrill from taking their ironing board, unplugged iron and some of their clothes to some extreme places and photograph themselves doing it. The most common CubeSat is a 10 cm cube. Within their compact bodies these miniature satellites are able to place sensors and communications receivers/transmitters that enable operators to study the Earth from space, as well as space around the Earth. C. A CubeSat is a small satellite that weighs just 1 kilogram. The design of these satellites has been so simplified that almost anyone can build them. More than that, the instructions are available for free online. They are quite easy to understand. After

		you build one, you can also test and launch it. CubeSats can be combined to make larger satellites if you need to carry heavier weights. Is it expensive to build one? Typically less than \$5,000. D. Australian scientists have successfully tested a new kind of jet aircraft that can move seven times faster than the speed of sound. It can bring hypersonic or ultra-fast travel a step closer to reality. Hypersonic jet engine that could be used to fly people from Sydney to London in just two hours is planned to make its first flight in 2018, according to the Australian scientists and engineers working on the project.

Elephants have been observed saving their young from drowning and also been filmed trying to save people they see at risk of drowning. B. A lot of studies suggest that green spaces enhance mental health and learning capacity, both immediately and over time, by lowering stress levels and restoring attention. Greenery restores attention by drawing the eye and at the same time calms the nervous system, creating an ideal state for learning. Similarly, studies show that spending time in the sunlight can reduce attention deficit symptoms, while bright light first thing in the morning can improve mood and the quality of sleep. C. Why are hyenas known for laughing? There is even a phrase we use: “to laugh like a hyena”. Zoologists will tell you that the unique sounds they make are actually no laughing matter. Hyenas indeed make loud barking noises that sound like

		laughter, but it's not because they're amused by anything. Instead, a hyena's "laughter" is actually a form of communication used to convey frustration, excitement, or fear. Most often, you'll hear this unique vocalization during a hunt or when the animals are feeding on prey as a group. D. Zoologists believe that boredom isn't a uniquely human emotion – animals can be bored, too. Animals which live in captivity (in zoos, for example) and don't have to take care of their survival may experience boredom and try to find ways to overcome it. They may come up with some "creative" activities which they wouldn't normally do in their natural environment. As for the pets at home, they may also suffer from the lack of stimulation. That's why we need to make sure we give them enough time, attention and toys regularly.

The first bobsleigh races took place in normal snow covered roads whereas the first bobsleighbing club was founded in St. Moritz, Switzerland in 1897 and the first specially designed race track was developed outside of St. Moritz in 1902. B. Bobsleighbing is mostly played in Europe along with North America and Russia because of the proper climate for the icy track. The United States of America, Germany and Switzerland have long been the most successful bobsleighbing nations based on their incredibly successful track record in all formats of competitive sports including World Cups and Olympic Championship. Presently, more than fifty countries take part in various international bobsleighbing events all over the world. C. Bobsleighbing is considered the most expensive winter

		sport as the equipment used in it, including the safety equipment as well as bobsleigh parts, are quite costly. The most important equipment in bobsleighbing is the sleigh. Besides this other protective guards are also used. The length of the sleigh must be a maximum of 3.80 metres (12.5 feet) for four-man sports and 2.70 metres (8.9 feet) in case of two-man sports. Bobsleigh crews are supposed to weigh heavy to ensure high speed. D. In fact, two-man and four-man types of bobsleigh are very much similar. As weight plays a vital role for the speed of the sleigh, four-man sleighs are much faster than two-man types. However, even a simple mistake at the initial push-off or, say, during the steering, on decisions of the driver during the turns may largely affect the final race. The thing is, air passing through the sleigh slows the sleigh down. In order to avoid these drags, wind tunnels are usually added to the sleigh.

41.	Установите соответствие между заголовками 1-4 и текстами А-Д. 1. Introduction. 2. Hazards and Risks. 3. Isolate, minimise and eliminate 4. Reporting hazards.	А. In order to foster a safe atmosphere, it is important to ensure that employees are aware of the differences between a hazard and a risk. This ensures that employees can recognise potential hazards and identify immediate risks, and in turn, report them through the proper procedure. В. This is a	1 – D 2 – A 3 – B 4 – C	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		method of dealing with hazards in the proper manner. When a hazard is identified, it must be dealt with immediately. Ideally, all hazards should be eliminated, if this is not possible, they should be isolated, and if this cannot be done, they should be minimised. C. One of the biggest reasons that's hazards are not dealt with properly is that the employees simply do not know how to report them properly. This is why it is essential to have a simple, clear line of communication and reporting procedure that employees are all aware of, and can use without fear of repercussions. If for example, an employee damages a piece of equipment, they may be reluctant to report it for fear of disciplinary action. This presents an enormous hazard for other employees using the equipment, as they may be

		unaware of the damage. D. Health and Safety in the workplace is an integral part of any business. Ensuring that health and safety regulations are met can be a challenging process, even in industries where the risk of injury is minimal.				
42	Установите соответствие между заголовками 1-4 и текстами А-Д. 1. Workplace safety: then and now. 2. Employee Benefits. 3. Employer Benefits. 4. Worker's Compensation Claims.	A. Workers benefit greatly from occupational health and safety measures. For example, due to regulations being in place: 1) Inspection and oversight regimens help identify unsafe conditions. 2) Modern data-driven workplace safety programs proactively identify risks and help employers tackle the underlying conditions that put workers in danger in the first place. 3) Legal recourse is available against negligent or unsafe employers. If you get injured on the job, you won't go bankrupt thanks to workers' compensation.	1 – C 2 – A 3 – B 4 – D	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		B. While such regulations can pose a burden to businesses, employers can benefit from them as well. Injuries and illnesses can lead to lost productivity, higher turnover, and more expensive employer-subsidized health insurance premiums. Regulations provide a data-driven framework of steps that can help an employer avoid these issues. C. Working conditions for the average American have improved over the last 150 years. In recent decades, major, economy-altering safety legislation has been passed, along with lesser regulations. While there's still work to be done, things like dangerous machinery, dimly lit offices, and poorly ventilated factories have been eliminated because of the work of occupational health and safety experts. Efforts that started with a

		focus on manual labor jobs, such as factory workers, now involve all occupations in the United States. The field continues to grow and adapt. D. Workers' compensation claims total more than a billion dollars a week. That doesn't even account for the loss of wages and other indirect expenses, such as decreased productivity and the psychological toll of experiencing or caring for someone with an injury.				
43	Установите соответствие между заголовками 1-4 и текстами А-Д. 1. Physical hazards. 2. Biological hazards. 3. Ergonomic hazards. 4. Safety hazards.	A. Many U.S. workers work almost exclusively on computers. Incorrect posture while using electronic devices (both on and off the clock) and workstations that are incorrectly adjusted can contribute to long-term pain, lost productivity, and medical costs. Repetitive activities such as typing, warehousing, and factory work can cause repetitive	1 – B 2 – D 3 – A 4 – C	OK01-OK07, OK09	У 1 - У 3, 3 1 - 3 3	10 мин.

		stress injuries such as <u>eye strain</u> and <u>carpal tunnel syndrome</u>. B. Employers are legally obligated under federal law to ensure that work environments are free from physical hazards, or conditions that can cause physical harm to a person without any type of contact. Heat illness, radiation, sunlight exposure are examples of physical hazards. C. Machinery: Machinery that isn't equipped with safety features such as guards can cause catastrophic injury. Even well-maintained equipment can pose a safety hazard when operated by untrained or distracted employees. Electrical hazards: Frayed and otherwise damaged electrical cords and wiring that is incorrectly installed can create a shock

		hazard. Falls: Hundreds of workers in the United States die from falls incurred on the job each year. While these incidents are almost entirely preventable, falls are the leading cause of fatalities among construction workers. D. Biological hazards may be encountered whenever people work with animals, certain hazardous plants, or people, especially in medical settings. Workers who are likely to come into contact with biological hazards should be equipped with appropriate safety gear such as surgical gloves and masks.

Paints and solvents, cleaning products, and pesticides can cause contact injury. Long-term exposure to certain chemicals can cause chronic illnesses such as cancer. D. Substances like gasoline, liquefied petroleum gas, and paints and lacquers may catch fire or cause explosions.

41.	As in many other European countries, Britain's main newspapers are losing their readers. Fewer and fewer people are buying broadsheets and tabloids at the newsagent's. In the last quarter of the twentieth century people became richer and now they can choose other forms of leisure activity. Also, there is the Internet which is a convenient and inexpensive alternative source of news.	a). Traditional delivery b) Focus on different readers c) Loss of popularity d) The successful competitor e) Money above privacy f) Size makes a difference g) The best-known newspapers j) Weekend reading	d	OK01-OK07, OK09	31, Y1, Y2, Y3	10
42.	The 'Sunday papers' are so called because that is the only day on which they are published. Sunday papers are usually thicker than the dailies and many of them have six or more sections. Some of them are 'sisters' of the daily newspapers. It means they are published by the same company but not on week days.	a). Traditional delivery b) Focus on different readers c) Loss of popularity d) The successful competitor e) Money above privacy f) Size makes a difference g) The best-known newspapers j) Weekend reading	a	OK01-OK07, OK09	31, Y1, Y2, Y3	10
43.	Another proof of the importance of 'the papers' is the morning 'paper round'. Most newsagents organise these. It has become common that more than half of the country's readers get their morning paper brought to their door by a teenager. The boy or	a). 44.	The quality papers or broadsheets are for the better educated readers. They devote much space to politics and other 'serious' news. The popular papers, or tabloids, sell to a much larger readership. They contain less text and a lot more pictures. They use bigger headlines and write in a simpler style of English. They concentrate on 'human interest stories' which often means scandal.	a). Traditional delivery b) Focus on different readers c) Loss of popularity d) The successful competitor e) Money above privacy f) Size makes a difference g) The best-known newspapers j)Weekend reading	f	OK01- OK07, OK09	31, Y1, Y2, Y3	10
45.	Not so long ago in Britain if you saw someone reading a newspaper you could tell what kind it was without even checking the name. It was because the quality papers were printed on very large pages called 'broadsheet'. You had to have expert turning skills to be able to read more than one page. The tabloids were printed on much smaller pages which were much easier to turn.	a). 	The reason is simple. What matters most for all newspaper publishers is making a profit. They would do anything to sell more copies.	g) The best-known newspapers j) Weekend reading				
47.	If you go into any newsagent's shop in Britain you will not find only newspapers. You will also see rows and rows of magazines for almost every imaginable taste. There are specialist magazines for many popular pastimes. There are around 3,000 of them published in the country and they are widely read, especially by women. Magazines usually list all the TV and radio programmes for the coming week and many British readers prefer them to newspapers.	a). Always in a hurry 2. The city of skyscrapers 3. Winning and losing 4. Unknown side of the city 5. Saving the variety	A. New York is really the melting pot of the world. Over 30 percent of its residents have come from abroad. It is believed that the city has the greatest linguistic diversity on the planet. There are over 800 different languages divided among its people. As some of these languages are nearly extinct, the City University of New York has begun a project called the Endangered Language Alliance. Its aim is to preserve rare languages like Bukhari, Vhlaski, and Ormuri. B. New Yorkers love to think they know everything about their city: where to find the best fruit, how to avoid paying full price at museums, what route to take to avoid traffic. But New York City can reveal new treasures even to its veterans. Beyond the city where New-Yorkers work, eat, play and commute every day lies a hidden New York: mysterious, forgotten, abandoned or just overlooked. There are places about which	A-5; B-4; C-3; D-1. The Bank was likely to triumph, with its height of 282 meters. But the spire of the Chrysler Building was constructed in secret inside the tower. Just one week after the Bank of Manhattan was finished, it was put in place, making it 318 meters tall and beating the Bank. It wouldn't keep this title for long: one year later the Empire State Building was erected. D. In New York life never stands still. People have to call cabs, ride subway cars, do business of all kinds, eat pizzas and sandwiches for lunch. When you multiply that by more than eight million people in less than 500 square miles, you get the idea: everyone goes everywhere as fast as it is humanly possible. Whatever you do, don't stop in the middle of the sidewalk or you'll make everyone around you incredibly angry.

Cheese rolling is something that has been around for over 200 years and is still practiced today. During the Spring Bank Holiday in England, people gather at the top of Coopers Hill and prepare for something very exciting. At the top of the hill, a judge rolls a round of cheese down the slope and the participants follow. People try to run down the slope but often end up rolling down like the cheese. The winner of the race wins the round of cheese as well as a few bruises and scars. C. It's possible that extreme sports became trendy in the late 20th century as a reaction to the greater safety of modern life. Lacking a feeling of danger in their everyday activities, people wanted more excitement or risk. Another reason is improved sports technology. For example, the invention of sticky rubber-soled climbing shoes and artificial climbing walls increased the appeal of rock climbing. And advances in ski design allowed more skiers to try extreme feats. D. Extreme Ironing is an extreme sport and a performance art. People who play this unusual sport go to a remote location and iron clothes! They call themselves "ironists", and get a thrill from taking their ironing board, unplugged iron and some of their clothes to some extreme places and photograph themselves doing it.

If shopping is something you enjoy, turn it into a self-employed career. Personal shoppers give advice to customers and suggest products that may suit their needs. This can be anything from gifts to household goods to clothing. Advertise your services at locations such as senior citizens' centres, community centres, shopping malls and grocery stores. Meet with the clients and find out what items (groceries, clothing, etc.) they need and how often. B. The market is changing very fast. In fact, there may be careers that exist when a student gets out of college that simply didn't exist when they started. So rather than asking, "What do I want to be?," pose these questions: "What skills do I have? What kinds of people do I like to work with? In what kind of environment?" This is a way to think about a career without necessarily naming it. You describe yourself in a functional way and then figure out what that's called and if people get paid to do it. C. It was built for only 63 dollars by a group of amateur radio operators and operated for nearly 20 days, testing radio reception from space. OSCAR 1 marked the beginning of a program that continues to this day. The program has led to innovations in spacecraft design and enabled radio enthusiasts to participate in satellite communications. B. Having a small satellite launched into orbit might sound strange, but over the past few decades a unique class of satellites has been created that seems	A-1; B-5; C-2; D-4. 		ideal for space operations: CubeSats. The most common CubeSat is a 10 cm cube. Within their compact bodies these miniature satellites are able to place sensors and communications receivers/transmitters that enable operators to study the Earth from space, as well as space around the Earth. C. A CubeSat is a small satellite that weighs just 1 kilogram. The design of these satellites has been so simplified that almost anyone can build them. More than that, the instructions are available for free online. They are quite easy to understand. After you build one, you can also test and launch it. CubeSats can be combined to make larger satellites if you need to carry heavier weights. Is it expensive to build one? Typically less than \$5,000. D. Australian scientists have successfully tested a new kind of jet aircraft that can move seven times faster than the speed of sound. It can bring hypersonic or ultra-fast travel a step closer to reality. Elephants have good sense of smell and there have been cases when they alerted rescuers to people trapped in a building. Elephants have been observed saving their young from drowning and also been filmed trying to save people they see at risk of drowning. B. A lot of studies suggest that green spaces enhance mental health and learning capacity, both immediately and over time, by lowering stress levels and restoring attention. Greenery restores attention by drawing the eye and at the same time calms the nervous system, creating an ideal state for learning. Similarly, studies show that spending time in the sunlight can reduce attention deficit symptoms, while bright light first thing in the morning can improve mood and the quality of sleep. C. Why are hyenas known for laughing? There is even a phrase we use: “to laugh like a hyena”. Zoologists will tell you that the unique sounds they make are actually no laughing matter. Hyenas indeed make loud barking noises that sound like laughter, but it’s not because they’re amused by anything. Instead, a hyena’s “laughter” is actually a form of communication used to convey frustration, excitement, or fear. Most often, you’ll hear this unique vocalization during a hunt or when the animals are feeding

		on prey as a group. D. Zoologists believe that boredom isn't a uniquely human emotion – animals can be bored, too. Animals which live in captivity (in zoos, for example) and don't have to take care of their survival may experience boredom and try to find ways to overcome it. They may come up with some "creative" activities which they wouldn't normally do in their natural environment. As for the pets at home, they may also suffer from the lack of stimulation. That's why we need to make sure we give them enough time, attention and toys regularly.				
50.	Установите соответствие между заголовками 1 — 5 и текстами А — D. Используйте каждую цифру только один раз. В задании один заголовок лишний. 1. Female bobsleighing 2. What you need for bobsleighing 3. Bobsleighing techniques 4. Participating countries 5. From the history of bobsleighing	A. Bobsleighing was originated in Switzerland. In the late 19th century, the Swiss first started doing it by attaching two skeleton sleighs together with a steering mechanism added to the front sleigh in order to control the direction. The first bobsleigh races took place in normal snow covered roads whereas the first bobsleighing club was founded in St. Moritz, Switzerland in 1897 and the first specially designed race track was developed outside of St. Moritz in 1902. B. Bobsleighing is mostly played in Europe along with North America and Russia because of the proper climate for the icy track. The United States of America, Germany and Switzerland have long been the most successful bobsleighing nations based on their incredibly successful track record in all formats of	A-5; B-4; C-2; D-3	OK01- OK07, OK09	31, Y1, Y2, Y3	10

		competitive sports including World Cups and Olympic Championship. Presently, more than fifty countries take part in various international bobsleighbing events all over the world. C. Bobsleighbing is considered the most expensive winter sport as the equipment used in it, including the safety equipment as well as bobsleigh parts, are quite costly. The most important equipment in bobsleighbing is the sleigh. Besides this other protective guards are also used. The length of the sleigh must be a maximum of 3.80 metres (12.5 feet) for four-man sports and 2.70 metres (8.9 feet) in case of two-man sports. Bobsleigh crews are supposed to weigh heavy to ensure high speed. D. In fact, two-man and four-man types of bobsleigh are very much similar. As weight plays a vital role for the speed of the sleigh, four-man sleighs are much faster than two-man types. However, even a simple mistake at the initial push-off or, say, during the steering, on decisions of the driver during the turns may largely affect the final race. The thing is, air passing through the sleigh slows the sleigh down. In order to avoid these drags, wind tunnels are usually added to the sleigh.

1.	Прочитайте текст о Дэвиде Бекхеме. Определите, какие из приведенных утверждений 1-5 соответствуют	1.David Beckham joined Manchester United in the 90th. 1) True	1.David Beckham joined Manchester United in the 90th. 1) True	OK01-OK07, OK09	31, У1, У2, У3	2

	содержанию текста (1-True), какие не соответствуют (2-False) и о чем в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа (3-Not stated). David Beckham says that he has always wanted to become a football player. He played football at school and in 1991 he joined Manchester United because he had always supported them and had always dreamed to play for them. Soon he became a top-scoring player. His private life interests people more than his skills as a football player. He has had a haircut. He has had a tattoo... In short, he has become an idol. David seldom gives interviews. Some people say it's because he has nothing to say for himself. Others, because he is stupid. None is true.	2)False 3)Not stated 2. People would like to know his biography most of all. 1) True 2) False 3) Not stated 3.David Beckham often gives interviews. 1) True 2) False 3)Not stated 4.David Beckham is an unpleasant person. 1)True 2) False 3)Not stated 5.At 26 David has achieved as much as he has. 1) True 2) False 3)Not stated	2.People would like to know his biography most of all. 3) Not stated 3.David Beckham often gives interviews. 1) True 4.David Beckham is an unpleasant person. 2) False 5.At 26 David has achieved as much as he has. 1) True

	David is a private person. He talks only when he wants to talk. He tries to live as normal life as he can _with the camera up my back 24 hours a day'. As for having nothing to say ... David's wife comments, 'He is always criticized. People say that he is silly, he is this, he is that. But someone who is England captain at 26 and has achieved as much as he has, simply can't be stupid.					
2.	Прочитайте текст и установите соответствие между вопросами А—F. I've never been to Brazil but I'd like to go there when I'm older. I think this helped me to decorate my room. I decided to turn it into a rain forest. So far, I've painted trees, tigers and monkeys across the walls. My friends think my room is quite cool but others think it's strange. But I'm proud of it.
